WHY WAIT?

a workshop on place/ time
& future technologies

betwixt

technology &
transitional spaces

www.inbetweeness.org

Legitimate vs. illegitimate waiting

Objects used to legitimise waiting: phones, cigarettes, books, coffee

Legitimised or not by where the waiting happens. Where are you allowed to wait?

What if you are waiting for a different purpose than the space was intended for?

Legally vs. socially legitimate waiting - contextual rules, negotiated waiting

Is it important to be seen to be doing the right kind of waiting?

Who are you accountable to?

How do you show what you are waiting for?

Does technology give us new ways of waiting?

Is the mobile phone an in or a barrier to interaction?

Technology as channelling points for waiting and social interaction

Maintaining transition spaces, times and activities

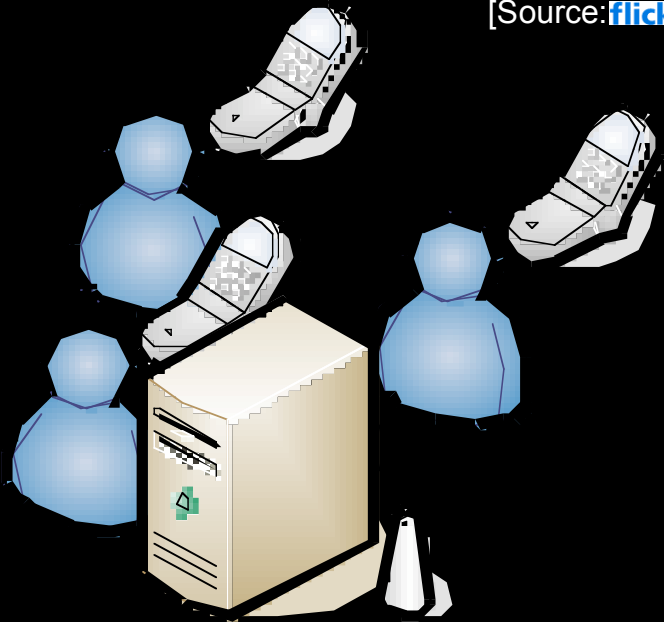

What imposes the rhythm of waiting? What are the tensions of waiting?

Is waiting necessary?
